

# Flint to Castell Flint Castle

## The Route...

Explore the fascinating ruins of this 13th century castle and enjoy lovely views over the River Dee estuary on this interesting walk in North Wales. The castle was the first of a series of castles built during King Edward I's campaign to conquer Wales. It's a very picturesque area with the striking castle sat next to the pretty estuary. The views over the estuary to England and the Wirral are also splendid.
